

## Graphite One Announces Increase in Second Tranche of Financing

---

**February 26, 2016 – Vancouver, British Columbia – Graphite One Resources Inc. (GPH: TSX-V; GPHOF: OTCQX) (“Graphite One” or the “Company”)** is pleased to announce that it is increasing the financing previously announced on December 2, 2015. The non-brokered private placement offering (the “Offering”) will increase from \$600,000 up to \$720,000 in gross proceeds to be raised. The Company has already closed a first tranche of the Offering in which a total of \$434,090 was raised and 4,823,222 units (the “Units”) were issued, on January 19, 2016. The Unit price of the Offering and all other terms of the Offering remain the same.

The Company plans to issue up to a total of 8.0 million Units (including the 4,823,222 units previously issued in the first tranche) at a price of C\$0.09 per Unit with each Unit consisting of one common share and one transferable common share purchase warrant (a “Warrant”). Each Warrant will entitle the holder to purchase one additional common share of the Company at a purchase price of \$0.12 per share on or before the date occurring 3 years from the closing date of the Offering.

In connection with the Offering, the Company may pay finders' fees to arm's-length parties.

The net proceeds of this Offering will be used for exploration and development of the Company's Graphite Creek Project and for general working capital purposes.

It is anticipated that the second tranche of the Offering will close in early March 2016.

This media release does not constitute an offer to sell or a solicitation of an offer to buy any of the securities in the United States. The securities have not been and will not be registered under the United States Securities Act of 1933, as amended (the “U.S. Securities Act”) or any state securities laws and may not be offered or sold within the United States or to U.S. Persons unless registered under the U.S. Securities Act and applicable state securities laws or an exemption from such registration is available.

### **About Graphite One**

GRAPHITE ONE RESOURCES INC. (GPH: TSX-V; GPHOF: OTCQX) is exploring with the intent to develop the Graphite Creek Project, USA's largest known large flake graphite deposit situated on the Seward Peninsula of Alaska about 60 kilometers north of Nome. The Project is progressing from the exploration to the evaluation phase. Work to date has identified a large, high grade and at-surface resource with simple geology and good mineralization continuity. The Project has the potential to produce products that will effectively compete in the high end battery market (for both electric vehicles and power storage) as well as other markets for purified graphite and graphite by-products.
