Graphite One Announces Financing

April 4, 2019 – Vancouver, British Columbia – Graphite One Inc. (GPH: TSX-V; GPHOF: OTCQB) (“Graphite One” or the “Corporation”) announces that it intends to complete a non-brokered private placement offering (the “Offering”) to raise gross proceeds of up to CA\$2,000,000.

The Corporation plans to issue up to 6.67 million units (the “Units”) at a price of CA\$0.30 per Unit. Each Unit consists of one common share and one transferable common share purchase warrant (a “Warrant”). Each Warrant entitles the holder to purchase one full Common Share at a purchase price of CA\$0.30 per Common Share and will expire one year from the date of issuance.

The Company may pay finders' fees to arm's-length parties in connection with the Offering.

The net proceeds of the Offering will be used for exploration and development of the Company's Graphite Creek Project and for general working capital purposes.

Closing is expected to occur on or around the end of April 2019, subject to receipt of final applicable regulatory approvals including approval of the TSX Venture Exchange. All securities issued in connection with the Offering will be subject to a restricted period that expires four months following the date of issuance.

It is anticipated that Taiga Mining Company, Inc. (“Taiga”) will participate in the Private Placement and that the issuance of Units to Taiga pursuant to the Private Placement (“Insider Participation”) will be considered to be a related party transaction within the meaning of TSXV Policy 5.9 and Multilateral Instrument 61-101 (“MI 61-101”). The Company intends to rely on the exemptions from the valuation and minority shareholder approval requirements of MI 61-101 contained in Sections 5.5(b) and 5.7(1)(b) of MI 61-101 in respect of the Insider Participation.

This media release does not constitute an offer to sell or a solicitation of an offer to buy any of the securities in the United States. The securities have not been and will not be registered under the United States Securities Act of 1933, as amended (the “U.S. Securities Act”) or any state securities laws and may not be offered or sold within the United States or to U.S. Persons unless registered under the U.S. Securities Act and applicable state securities laws or an exemption from such registration is available.

About Graphite One

GRAPHITE ONE INC. (GPH: TSX-V; GPHOF: OTCQB) continues to develop its Graphite One Project (the “Project”), whereby the Company could potentially become an American producer of high grade Coated Spherical Graphite (“CSG”) that is integrated with a domestic graphite resource. The Project is proposed as a vertically integrated enterprise to mine, process and manufacture high grade CSG primarily for the lithium-ion electric vehicle battery market. As set forth in the Company's Preliminary Economic Assessment, potential graphite mineralization mined from the Company's Graphite Creek Property, is expected to be processed into concentrate at a graphite processing plant. The proposed processing plant would be located on the Graphite Creek Property situated on the Seward Peninsula about 60 kilometers north of Nome, Alaska. CSG and other value-added graphite products, would likely be

manufactured from the concentrate at the Company's proposed graphite product manufacturing facility, the location of which is the subject of further study and analysis. The Company intends to make a production decision on the Project once a feasibility study is completed.
